

## COMMERCIAL HEAT PUMPS

- *Save up to two-thirds – or more – on commercial water heating costs*
- *Ideal for hotels, guesthouses, B&B's, universities, factories and offices*
- *Modularity allows up to 16 units to be linked, supplying up to 10 000 litres of hot water per hour*
- *Water output temperature adjustable from 40°C to 60°C*
- *Heating periods controlled by timer; heats day or night, rain or shine*
- *Supported nationwide by Alliance with branches in all major metropolitan centres*
- *New controller with touch-key operation, 3 timer setting periods and battery back-up. Can be mounted up to 20m from Heat Pump.*

**Alliance**
